re: Docket No. E-00000C-11-0328 Smart Meters

Dear Commissioners:

It has come to my attention that the Arizona Corporation Commission has recently developed smart meter guidelines, including how to opt out smart meters on one's home. These guidelines are disastrous for those whose health is affected by radio frequency electromagnetic fields.

It is my belief that any opt-out plan must include all Arizona utility customers, regardless of the metering technology they have in their area. It is a personal choice for some, and for many others it is a medical necessity. Look to the concerns over smart meters that have already been raised in other states, such as California.

All opt-out participants must be offered a non-communicating electromechanical meter.

Sincerely,

Jason McGill
Snowflake, AZ
